

OFFERING CATALOGUE

Four ways to put it on the wall

The licence is the show. Hardware is optional. Mix them.

1. Your screens

NovaStar Taurus, Samsung/LG/webOS, Chrome, or any player that can open a web page. We give you one magic link per display. You need network time and HTTPS out.

2. Attraction Device

A mini PC that boots into its room. Rent per season or buy. Enrol with a one-time code. Heartbeat and clock offset show in the dashboard.

Rent €155 per player per 42 consecutive days · buy €374

3. 85-inch-class TVs in flight cases

We deliver, place, and collect. Vehicle capacity, installation crew and site access are confirmed after survey.

€450 per 24 hours; €1,100 per 7 days; €3,300 per 42 days, per owned display. Includes stand, case and cables. Players, delivery, installation, collection, travel and attendants separately itemised. Supplier-hired screens require a confirmed quotation.

4. Projection

Atriums, Christmas markets, tents. Projector kit, truss, hang crew.

Projector €180 per week · truss €90 per day · technician €740 per day

Themes

The North Pole is our Christmas show. Halloween, Easter and branded stories are available for development, with content, scope and dates quoted separately.

VR

The website VR view is a concept preview, not a completed headset production. A bespoke flight over a town is a content job (€12,000-€28,000).
